Editor's Note

Welcome to the 3rd edition of the annual magazine [Timeline] of **LRG Public School**. We are really glad to share memorable moments of the year [2023-24], so that every reader remembers and I hope it would create new strength to all who read the timeline.

The magazine is to be viewed as a launch pad for the children's creative urges to blossom naturally. As the saying goes Mind like parachute works best when opened.

This humble initiative is to set the budding minds free, allowing them to roam free in the realm of imagination and experience to create a world of beauty in words.

This magazine is an endeavour of young vibrant minds with innovation, enthusiasm and ideas brought under a single umbrella. Students have excelled not only in academics but also in co-curricular activities conducted.

The emphasis of the school on the overall personality development of students in a stress free environment is praise worthy.

Finally, I convey my heartfelt gratitude to all the contributors and their sincere effort towards their success and achievements.

Editorial Team

Chief Editor : **T B Bharathi**
Sub Editor : **V S Nazma**

From Principal's Desk

Dear Parents and students,

A good school educates its students to use their gifts of learning and ability to build better communities and raise human standards in common. LRGPS Sen Secondary School is school with a rich legacy (drawn from LRG Group of Institutions) and offering a quality education with a difference. The school believes in “EVERY CHILD COUNTS” and provides learning opportunities for each student to learn and grow. Within a short period of time after inception in 2018, the school has widened the horizon from Pre Primary to Senior Secondary Level.

The school's partnership with our parents is vital to the success of our students and school. Their cooperation and contribution has given us courage to go forth and explore new vistas in education.

Accepting the fact that parents have dreams for their children, I would like to advice the parents not to push their children to achieve their unfulfilled dreams. We must remember that they were born not for our time but for another.

As a policy, school believes that “Education is a passport of future, for tomorrow belongs to those who prepare for it today”.

Gratitude for my incredible teachers

I'm Sahasra, who just then completed my schooling in L.R.G. Public School. In my school journey, I have been fortunate to have a remarkable group of teachers, who have shaped the person I am today. From my respected principal to my class teacher Jayasena ma'am. Each one has left an indelible mark on my heart.

First and foremost, I must express my heartfelt gratitude to my respected principal ma'am, "Bharati ma'am". She has been a guiding light, always leading by examples and instilling in us the values of discipline & integrity. Her wisdom and teachings have been invaluable, shaping not only our academic lives but also our character.

Jayasena ma'am: Our Physics teacher, you are more than a teacher to me. Your friendly approach and bond you shared with each student in our class made learning

math enjoyable and accessible for all of us. Sneelhar sir: You are the most coolest person! You explain any doubt or anything, not only related to the subject in a fraction of seconds. Your quick thinking and friendly nature have made learning a breeze.

Nijanjuman sir: Our library teacher, your guidance in the library has opened up new world for us.

Maheswari Ma'am: Our IT teacher, you have taught us, so much. Your cool and warm approach made every IT class exciting. We appreciate your dedication ma'am.

Anurama ma'am: Our IT teacher, even though we had a less time with you, your skill and knowledge were exceptional.

To all my teachers, include those mentioned above, Thankyou for teaching me so much. You have made my school life incredibly memorable.

With heartfelt gratitude,
Sahasra.

not only informative but also enjoyable. Jayalakshmi Ma'am: I can't thank you enough for pushing us to reach our full potential. Your strictness and high expectations may have seemed challenging at that times, but looking back, I realise that it was all for our benefit.

Raveen Kumar Sir: Your student-friendly nature and thank-you for being patient with us and for instilling us a love for the subject.

Govind Sir: Our Telugu teacher, your passion for our mother tongue, and your commitment for teaching us its beauty and richness have left a lasting impression. Thankyou for helping us connect with our cultural roots.

Nayma Ma'am: Yes, she is our English teacher. your infectious enthusiasm and creative teaching methods and the way you speak made every English class joy. Thankyou for all of these ma'am.

Sneelvi ma'am: Our mathematics teacher. No other teacher can explain the way she does. Her ability to breakdown complex concepts into simple steps has made

The Best Help I could Ever Do

The Best help I did for poor people that is I could ever do. There are so many people who do not have food to eat. Now, that is something, you cannot treat as a human. This world offers food to everyone and you everybody has that right.

Hence, you must feel the pain. The hunger pain is quite disturbing and painful. You can donate a little amount to feed someone. Your community must have people who are starving; you can give them one time food. It is a fact that it will give you immense happiness and smiles around.

There are government organizations across the world buying to get rid of this dread but poor them but you need to find out how can you help. Your small efforts can make big change in the world.

You can also help people and kids getting medical attention. Each year people die because they do not have enough money to get basic medical treatment you can also contribute that too.

You have a certain responsibility towards the world and the people. You must take that responsibility. Your small steps and efforts can make huge differences.

You can feed a human; you can give some amount so that you can make shelter for the needy people. You can find the people who need education to help them in getting an education lets help the poor people.

Importance of Sports

M. Badrinath
Grade-VI
Krishna

The importance of sports, explains that sports play a vital role in our lives. It helps us to stay healthy, fit and active. It teaches us the values of teamwork and encourages us to work hard and never give up. Sports also help us develop discipline, dedication, and commitment, which are essential values for success in life. It is also a great way for people to socialize and make new friends. Therefore, we should all strive to make sports a part of our daily lives.

Importance of punctuality

I joined in L.R.G. Public school in 3rd grade. I like this school and I like very much of punctuality in L.R.G. Public school.

Importance of punctuality

1. Punctuality is a good virtue that helps people complete a task within due time.
2. It can also refer to reaching on time at work, meetings, school, or anywhere else.
3. A punctual student is considered credible and trustworthy.
4. Punctuality makes us value our time and that of others.
5. A punctual student is very good at time management.
6. Most famous and successful personalities are known to be punctual.

P. Jayang Perincy

My Favourite Bird: Peacock

My Favourite bird is peacock.

It is a very beautiful bird.

Peacock is the National bird of India.

It is a blue colored bird and its feathers are blue, green and golden.

In India, Sri Lanka, Indonesia and Africa peacocks are found.

Peacocks look lovely when it dances after rain.

Peacocks cannot fly much high.

It has a crown on its head which looks very attractive.

I like this bird very much.

Poem on Save Water

Oh Save water, save water
Water is our life,
Water is used for everything.
Without water there is nothing
We can not live without it
So, we should always
take care of it.
Never waste a drop of water.
All living things need water.
Together we can save water.
So, we should always save water.

Poem on Save Earth

Save our earth,
Save our life,
Plant the tree,
Make our earth pollution free.
Save our earth,
Save the ocean,
Save the nature,
By help the creatures.

The Most Prized Possession in the World

The Most prized possession in the world is 'Children's artwork'. Arts, education in children helps them to learn several aspects of life. Their learning experiences are significant to the overall development of the child, and the child builds various skills may be become handy later in life. However, arts education for children significantly different from the arts education that is offered in advanced or advanced institutions. They used the use of necessary items to do activities that involve the use of physical materials. The benefits of such activities engenders are the reason for the increased emphasis on arts education in American school curricula. Affording children to engage in arts, plays and musical aids in the development of early communication skills in children. Often, children pass information to one another when they construct artistic impressions. During these activities, kids converse with each in collaboration to achieve their goal of coming up with a successful art product (Public Broadcast Service PBS). In effect, children learn the importance of teamwork in achieving success in any life skills building activity.

Indian National Flag

The Indian National Flag represents the hopes and aspirations of the people of India.

Indian Flag is a tri-colored flag also known as Tiranga, designed by Pingal Venkayya, a freedom fighter.

The India flag is an important symbol for the country.

The saffron colour represents the strength and courage of the nation. The white colour stands for peace, purity and integrity. Finally, the green colour symbolizes the fertility and auspiciousness of Indian land. Ashoka chakra is represented in the flag's tri-colour. It has twenty-four (24) spokes and it is adopted on July 22, 1947.

An Ideal Student

Every child is born with some inborn qualities. No one is perfect in this world, but we can always appreciate someone's good behavior and manners. An ideal student is one who is very humble and respectful towards their studies and their elders. They must be loyal and trustworthy, which can be proved by their behaviour and attitude. Scoring high marks is not something that matters in life. If you are a humble person and have a respectful attitude towards others, everyone will remember you for entire life. An ideal student is attentive in life and class, dedicated to his or her life, studies

and always bond by their teachers. An ideal student motivates other children and maintains a positive atmosphere around them.

All appreciate an ideal student not because of the score but for his or her behaviour and attitude towards others. A person's good qualities will be imprinted in everyone's heart and mind for life.

My School My Home

My school is my home.
Why think of home? When I am in school.
L.R.G.P.S. is known for Knowledge pool.
Learning is so fun in my school.
I love my school.

L.R.G.P.S. is so cool to fool.
with friends & teachers.
A place where learning is fun
and place to pass with flying colours.
I love my school just like a heaven.

L.R.G.P.S. is famous for making our life
as easy as ABC.
My school is my tool to raise and
reach my goal.
I love my school just like my home.

I run round and round in the play ground.
Learn to be creative in the smart labs.
I am the bookworm in the library
I love my school just like a tuffie.
East or West L.R.G.P.S. is the best!

My Wonderful Dreams

M. Anithaa
III class

Everyone has a dream to achieve something
in his/her life. Some people dream of becoming
rich, some want to become famous doctor and some
want to make other's lives better by helping them.
My dream is to become a scientist. It is not an
easy to achieve goal, But I know I can do it. My
My inspiration is Dr-APJ Abdul Kalam. He was an
aero space scientist. There are so many exciting things
to learn in it. I enjoy reading science books on natural
process, invention, discoveries, plants, animals, human
beings etc. Scientist solve global challenges, make
inventions and they get to learn new things every
now and then. When I become a scientist, I want to
help society through a my revolutionary ideas.
There are so many issues including pollution
and global warming. I want to invent such
devices which help the world in eradicating such
problems. My parents and teachers always motivate
me to study well and passionately work towards
achievement.

My Wonderful Dream

Everyone has a dream to achieve something in
his/her life. Some people dream of becoming famous,
Popular and rich and some want to make other's
lives better by helping them. My dream is to become
a doctor. I have seen many doctors, who save other
people lives and they feel happy in the satisfaction
they get through this activity. I want to be a doctor
who will serve good for this society and help poor
to get good medical care without expecting big
money in return. Doctors are respected in all
places and among all types of society. Doctors
are really noble persons. My parents and teachers
always motivate me to study well and passionately
work towards achieving my dream.

Mariposa

Butterflies are white and blue
In this field we wander through.
Suffer me to take your hand.
Death comes in a day or two.

All the things we ever know,
I'll be ashes in that hour.
Mark the transient butterfly,
How he hangs upon the flower.

Suffer me to take your hand.
Suffer me to cherish you.
Till the dawn is in the sky.
Whether I be false or true,
Death comes in a day or two.

Why I would like
to be an Hosteller?

Hostel life is one of the best memory of a student. Hostel life teaches many lessons in our life. Hostel life tends to develop healthy competition and co-operation among hostellers. Many students of the same age live in hostel. They help each other in case of emergency or any need. A regulated way of life is learned in a hostel life.

The most important lesson learned is adjustment and social accommodation with others. At home, all the children depend on parents but in the hostel everything should be done by ourselves which make us independent. Hostel life trains you to develop a taste for whatever served in the hostel. Mainly the student learns Discipline, Self-Reliance, Increases cultural awareness and better environment for studying.

These are all the reasons why I would like to be an hosteller. Hostel life teaches the value of parents, food and care. I would say that atleast once in the life a person should experience the hostel life. Hostel life seems to be hell but after going back from hostel your life changes into heaven.

Jashima Reddy .
Grade - IX

Why I Would Like to be an Hosteller?

Why I would like to be an hosteller? I would like to be an hosteller because hostel is a place of dynamic studying centre. In a hostel economical, health and safe accomadation is provided to students of a school or college. I think life in hostel is totally from life in home. Life in a hostel makes a student self dependent. It makes us smart, active and disciplined. Hostel life teaches us many things such as teamwork, helping and adjustment Nature. In a hostel a rolemodel can make other hostellers inspired in a positive way. I hope that in hostel we study a lot at the same time we get entertainment. As a hosteller we are able to develop a sense of independence and self reliance. Living in the hostel that is usually located inside the campus saves us travelling time, expenses and stress.

We can take help of our roommates in studies if

we have any problem with a particular topic.

Hostel life tends to develop a healthy competition and mutual co-operation among the hostellers. Hostel life is a great event that teaches about difficulties in life. In a hostel students do their own works at a certain time without anyones help. It teaches us a sense of responsibility. It gives a opportunity to learn important life skills.

"Hostel life is a Emotion combined of many 'emotions'".

Name of the months

The names of the months in English (as well as in many other languages) came from the Latin words.

- 1. January** : Januarius-this month was dedicated to Janus, the Roman god of doors. Janus had two faces, one looking back at the old year and other looking forward to the new year.
- 2. February** : Februarius- Februa was the Roman purification festival, which took place at this time of year.
- 3. March** : Martius-from Mars, the roman god of war.
- 4. April** : Aprilis- from aperire, Latin for open, because planets begin to open during this month.
- 5. May** : Maius-probably comes from Maia, the goddess of growth and increase.
- 6. June** : Junius-either from a Roman family name Junius, which means young, or perhaps after the goddess Juno.
- 7. July** : Julius- after Julius Caesar. This month was named in Caesar's honour of Mark Antony in 44 BC. Previously this month was called quintus, five, as it was fifth month of Roman calendar.
- 8. August** : Augustus- named in 8 BC in honour of Emperor Augustus.
- 9. September** : September-from septem, seven, because it was the seventh month in the Roman calendar.
- 10. October** : October-from octo, eight (as in octopus, which has eight legs), the eighth month in Roman calendar.
- 11. November** : November- from novem, nine, the ninth month in the Roman calendar.
- 12. December** : December- from decem, ten, the tenth month in roman calendar.

Y.SAATVIKA, CLASS: -VII

Naming the days of the week

The ancient Babylonians, then the Romans, named the days of the week after planets and other bodies they saw in the sky.

- 1. Monday** :
Moon's day.
- 2. Tuesday** :
Tiu's-day: Mars, the Roman god of war, was adopted in Scandinavian mythology as the warrior Tiu or Tiws.
- 3. Wednesday** :
Woden's day: the Roman god Mercury became the Scandinavian god Woden.
- 4. Thursday** :
Thor's day: like the Roman god Jupiter, Thor was a thunder god.
- 5. Friday** :
Freyja's day: like Venus, Freyja or Frigg was the goddess of love.
- 6. Saturday** : **Satum's day.**
- 7. Sunday** : **Sun's day.**

Y.SAATVIKA, CLASS: -VII

Jokes

- Mina asks her friend,
Mina: Which book do you like the most?
Tina: My husband's cheque book.
- Judge: kind lady why did you hit your husband with the chair?
Lady: because I couldn't lift the table.
- What does it mean if your nose starts to run? It's trying to catch cold.
- Help, I've lost my cat!, Well, why don't you put an advertisement in the local newspaper?
Don't be silly cats can't read.

LIFE : UNDECIFIRABLE PRE DESIGNED PROGRAMME

Life, often envisioned as a linear path leading from birth to death, is frequently perceived as a predetermined program, where events unfold in a predictable manner. However, this perception overlooks the fundamental truth that life is far from scripted; rather, it is an intricate tapestry woven with the unpredictable threads of unseen challenges. These challenges, often unexpected and daunting, serve as catalysts for growth, resilience, and self-discovery, shaping our journey in profound ways.

One of the most outstanding aspects of life is its inherent unpredictability. No matter how meticulously we plan or strategize, we cannot foresee every twist and turn that lies ahead. Just as a ship encounters turbulent waters amidst its voyage, everyone encounters unforeseen obstacles that test one's resolve and adaptability. These challenges come in myriad forms - personal, professional, societal and manifest themselves when least expected, disrupting the equilibrium of our existence.

Moreover, the unpredictable nature of life ensures that we are constantly pushed beyond our comfort zones. It is during these moments of adversity that we truly discover our strengths and weaknesses, our resilience, and capacity for growth. When faced with unforeseen challenges, we are compelled to tap into reservoirs of courage and determination we never knew existed, transcending perceived limitations and emerging stronger and wiser.

Furthermore, it is through grappling with the unknown that we embark on a journey of self-discovery. Each unseen challenge presents an opportunity for introspection, prompting us to question our beliefs, values, and priorities. As we navigate the uncharted territory of uncertainty, we gain deeper insights into ourselves - our aspirations, fears, and aspirations - and cultivate a greater sense of self-awareness and authenticity.

Additionally, the unpredictability of life fosters innovation and creativity. When confronted with unexpected obstacles, we are forced to think outside the confines of conventional wisdom, seeking novel solutions to complex problems. In doing so, we harness the power of imagination and ingenuity, ushering in transformative change and progress.

However, amidst the uncertainty and chaos, it is crucial to recognize that unseen challenges are not insurmountable obstacles, but rather stepping stones towards personal growth and fulfilment. By embracing the inherent unpredictability of life, we cultivate resilience, adaptability, and a sense of agency, empowering us to navigate the ever-changing landscape of existence with grace and resilience.

In conclusion, life is not a predesigned program; rather, it is an unpredictable journey fraught with unseen challenges. These challenges, though daunting, serve as catalysts for growth, resilience, and self-discovery, shaping our journey in profound ways. By embracing the inherent unpredictability of life, we unlock the potential for personal growth, innovation, and transformation, transcending perceived limitations and emerging stronger and more resilient than ever before. Thus, let us embrace the uncertainty, for it is amidst the chaos that we find our truest selves. What is preprogrammed is the Navigating Life's Unpredictable Journey.

```
Life myLife = new Life();
myLife.startLife();
while(!myLife.makeSuccess()) {
myLife.tryAgain();
if (myLife.death()) { break; }
}
```

.. విద్యార్థి ..

కట్టె కాలే లోపు
గుండె ఆగే లోపు
శ్వాస నిలిచే లోపు
ఈ లోకం ఇడిసే లోపు
నువ్వు తలచిన కార్యం
భగవంతుడు నీకు తలపించిన
కార్యం పూర్తి చేయాల్సిందే
లే మేలుకో ముందుకు కదులు
లోకాన్ని మార్చే శక్తి నీలో వుంది
కదులు ముందుకు కదులు
ఈ ప్రపంచంలో
సాధ్యం కానిది ఏమి లేదు
“అద్భుతాన్ని అబ్బుర పరపింప చేసే”
సత్తా, శక్తి, యుక్తి తెలివి తేటలు వున్న
నీలాంటి విద్యార్థికి నేను చెప్పాలా

మంచు దారుల్లో

పాగలుకక్కే మనసుకు
మంచుదారులు ఒక ఉపశమనం!
కళ్ళముందు ఎన్ని దారులున్నా
మనసుకోరుకునేది ఇలాంటి దారులే!
ప్రకృతి అందాలకు పరవశించని
మనసు ఉంటుందా...?
రోజూ ఉదయమే నేను
నిద్రకళ్ళతో కళ్ళు నులుముకునేది ఇలాంటి దృశ్యాలనే!!
ఇలాంటి సుందర దారులు చూసినప్పుడు
ఒక తీయని ఆనందమేదో
మనసుపారల్లో దూరి గిలిగింతలు పెడుతుంది!!
ఇక ఆ రోజంతా
స్వచ్ఛమైన ఆలోచనలే
పరిమళాలు వెదజల్లుతూ
తూనీరాలై చుట్టూ పరిభ్రమిస్తాయి.

విద్యార్థి నీ ప్రయాణం

ఆపకు నీ ప్రయాణం దేనికి బయపడి.
ఈ రాతిరి మాసిన వెలుగు రేపటికి నీకై రగులుతూ ఎదురవుతుంది.
సాగే సెలయేరు దారి తప్పకుండా నీకు బాట వేస్తుంది.
కొండగాలి నువు క్రుంగకుండా భుజం తడుతుంది.
విశ్వమంతా తలుపు తెరిచి నిను ఆహ్వానిస్తోంది.

कविता

हमारी भारतीयता की सरस पहचान है हिंदी।
हमारी आत्मा में गूँजता इक गान है हिंदी॥
मधुर, मोहक, मृदुल, स्वप्रिल सुहानी और सुरभित -सी,
कि अधरों पर बिखरती जो वही मुस्कान है हिंदी॥
ध्वनि की एक वैज्ञानिक व्यवस्था है इसके,
कहूँ यदि सत्य तो भाषाओं में विज्ञान है हिंदी॥
मनों को जोड़ती है जो परस्पर प्रेम से अपने,
मृदुल संवेदनाओं से भरा आह्वान है हिंदी॥
कि तुर्की, पुर्तगाली ,फारसी ,इंग्लिश या जापानी,
सभी के वास्ते शुभ हार्दिक सम्मान है हिंदी ॥

INDIAN TOURISM

1. Tourism is an industry that promotes traveling from one place to other.
 2. There is so much of diversity that India offers-history, culture, religion, nature, climate, handicrafts no other country offers so much.
 3. Traveling is good for the body if hikes are included in the itinerary.
 4. Traveling helps at intervals the expansion and development of a private every mentally and emotionally.
 5. It helps to increase your knowledge regarding fully different places, people and quality.
 6. The Tourism industry is important due to its role as a commercial activity and the demand and it creates for many more industries.
 7. The positive effect of tourism is that it can increase jobs, higher quality of life for locals and an increase in the wealth of an area.
 8. But the tourism industry is not flourishing as it should because the main causes are indifferent travel facilities, pollution, ill-kept tourist centres and no proper guidance and direction.
 9. Occasional unrests, terrorism and crime also deter tourists.
 10. It is really unfortunate that tourism, which could have been converted into a big income-earning industry stands neglected and is on a decline.
- so, if above anti tourist issues are declined then tourism is flourished.

ARTICLE : ON MATHEMATICS SOCIETY

Mathematics is a discipline in several different respects. It is a science in an epistemological sense, oriented towards developing, describing and understanding objects, phenomena, relationships, mechanisms, and so forth belonging to some domain. When this domain consists of what we usually think of as mathematical entities, mathematics acts as a pure science. In this capacity, mathematics aims at internal self-development and self-understanding, independent of the world outside except for the fact that mathematics is exercised by human beings interacting with each other and working in societal institutions in accordance with social norms and habits. If, on the other hand, the domain under consideration lies outside of mathematics, typically within some other scientific field, mathematics serves as an applied science. In this capacity, mathematics is activated to help to understand and develop aspects of various extra-mathematical areas. Needless to say, mathematics as a pure science provides crucial contributions to mathematics as an applied science, although often with a great delay. The difference between these two aspects of mathematics is a question of the focus of attention rather than of mathematical content matter. Whether pure or applied, mathematics as a science serves to generate knowledge and insight. Mathematics is also a system of instruments, products as well as processes, that can assist decisions and actions related to the mastering of extra-mathematical practice areas. (That such decisions and actions will often be based on scientific knowledge and insight, whether mathematical or extra-mathematical, is quite true but not essential in the present context.) Thus mathematics provides tools for the exercise of a very wide range of social practices and techniques.

Mathematics is a field of aesthetics capable of giving experiences of beauty, joy and excitement to many of those who indulge in it. In this respect, mathematics resembles an art form such as sculpture, painting, architecture and music—all of which also have certain content aspects in common with mathematics.

IMPORTANCE OF SCIENCE AND TECHNOLOGY

Science plays a crucial role in our everyday lives, shaping and enhancing our experiences in various ways from the moment we wake up we are surrounded by scientific invention and discoveries that make our lives more comfortable and efficient. Even it is an integral part of our daily lives, often operating behind the scenes, making our efficient.

Science informs public policy and personal decisions on energy, conservation agriculture, health, transportation, communication, defense, economics, leisure and even involved in cooking, eating, breathing, driving, playing. A modern man lives on the lap of science. The numerous gifts of science bless him from the early morning till the late night.

Today, the amount of data that is generated, by both humans and machines, far outpaces humans' ability to absorb, interpret, and make complex decisions based on that data. Artificial intelligence forms the basis for all computer learning and is the future of all complex decision making. Artificial Intelligence (AI) technology has become increasingly important in the modern world due to its numerous applications and benefits and is quickly changing how we live our lives. In computer science and computers, the term artificial intelligence has played a very prominent role. The term has become more popular due to recent advances in Artificial Intelligence and Machine Learning. Artificial Intelligence and Machine Learning have become integral to our lives and their relevance in the near future is undeniable.
